HIKVISION DDR4 S1

Introduction

Hikvision memory module S1 is a DDR4 memory , which is manufactured by using original high-quality granules and mature production technology to make it more compatible, work stable and cost- effective. It can be widely used in PC installation, various high bandwidth, high performance system applications.

Available Models

HS-SODIMM-S1(STD)/HKED4082CAB1G4ZB1 8GB DDR4 SO-DIMM 3200MHz CL22 1Rx8

HS-SODIMM-S1(STD)/HKED4162CAB1G4ZB1 16GB DDR4 SO-DIMM 3200MHz CL22 2Rx8

Features and Functions

- **Cost-effective**

  Adopt original granules to make the system run stably and perform better

- **Good compatibility**

  Better compatibility, compatible with more products after Hikvision optimization

Specifications

Name	HS-SODIMM-S1	
Model	HS-SODIMM-S1(STD)/HKED4082CAB1G4ZB1	HS-SODIMM-S1(STD)/HKED4162CAB1G4ZB1
Capacity	8GB	16GB
Interface	DDR4	
frequency	3200MHz	
Pin	260pin	
CAS Latency	CL22	
Working Voltage	1.2V	
Size(L×W×H mm)	69.6×30.0×1.2	
Operation temperature	0°C to 85 °C (32 °Fto185 °F)	
Limited warranty period	Lifetime warranty
